

## **Medical Team Forms**

MED-1. Damage Assessment – this form is sent out by the IC with each team for them to access damage in their search and rescue part of their assignment.

MED-2. Victim Treatment Area Record – this is a very important VICTIM TRACKING RECORD. The form is given to each Search and Rescue and/or Medical Team. The team tracks each person – time, name, TRIAGE level, medical condition, where relocated (moved) to, and time out. Each team at each level must track victims so that their location is always known.

NOTE: There is NO page 4.

Summary of all hazards in area - fill out this form on your way to Command Post and give it to Incident Command.  
 (\* for structure damage: h=heavy, m=moderate, l=light)  
 Incident Command: Choose an incident, put a slash in the assignment completed column, copy the address/location to the incident name section on Incident Briefing, and give Incident Briefing and Assignment Status to incident team leader. Copy address/location to Post-Incident Status and enter start time. When incident is complete, put a backslash in the assignment completed column and the incident end time on the Post-Incident Status form.
