

Fiber Pulling

- Installation of fiber cables into conduit
- Careful handling of fiber to ensure integrity

Installation to the Home

Bringing fiber from the street to individual homes

Placing grey NID on side of house for fiber connection

Connect to ONT (Fiber Modem) and router within the home

“The Drop”

- From the vault in the side of the road, we will run a fiber line up to your home.
- This work involves trenching the fiber cable along a very thin perforation up your yard.
- Depending on utilities or drop path, we may hand dig.
- Fiber line will be buried 4-8 inches deep, generally shallower as it nears the home.

NID (Grey box
installed on
side of home)

- This is the connection point for fiber that is running into your home

Fiber Modem – The ONT

- Optical Network Terminal
- Cable Modem is not compatible
- Connects to the router to provide internet data
- Inside fiber connection point

Nokia Routers

- Capable of 1Gig link speeds all the way to 10Gig depending on model
- Optional to use
- The router is what broadcasts your Wi-Fi
- Mesh compatible. Most homes are happiest with two!

Internet Plans & Pricing

BASIC 500Mbps	GIGABIT 1Gbps	GIGABIT PLUS 2.5Gbps
500Mbps \$79.99	1000Mbps \$89.99	2500Mbps \$119.99
